ST KILDA ROAD: CONFIGURATION DURING CONSTRUCTION

PLANNING PROCESS

The Environment Effects Statement covers a comprehensive range of impact assessments.

Key upcoming milestones:

- Public exhibition May / June 2016
- Inquiry hearings August / September 2016
- Final assessment Late 2016 / Early 2017

A thick, solid blue curved line, resembling a large 'C' or a partial circle, is positioned to the left of the section header.

PROJECT PLANNING UPDATE

The Assessment Project evaluated in the project EES comprises:

- Concept Design
- Environmental Performance Requirements
- Proposed Project Boundary

The Environmental Performance Requirements define the environmental outcomes that must be achieved during design, construction and operation of the project. They allow flexibility by our delivery partners in how the outcomes will be achieved.

The project will be delivered in accordance with the Environmental Performance Requirements.

EES ASSESSMENTS – SPECIALIST REPORTS

Land Use & Community	Amenity	Ecology
• Land use and planning • Economics and business • Social and community • Visual and landscape	• Noise and vibration • Air quality	• Arboriculture (trees) • Terrestrial flora and fauna • Aquatic flora and fauna
Cultural Assets • European heritage • Aboriginal heritage	Earth Conditions • Hydrology • Groundwater and contamination Connectivity • Transport and traffic	Greenhouse Gas / Sustainability • ESD • Greenhouse gas

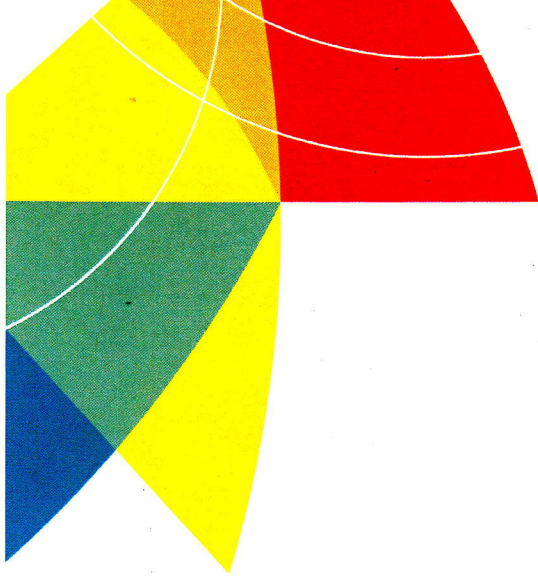

NEXT STEPS

2016:	Release Business Case
	Statutory planning approvals – EES
	Finalise reference design
	Ongoing market engagement
	Engage Early Works contractor
	Release Expression of Interest – Major Works
	Commence Enabling Works
	Early works, eg site preparation and service relocation
2017:	Commence Major Works
2018:	Completion date
