WORKS UPDATE

ST KILDA ROAD WORKS BETWEEN BOWEN CRESCENT AND BOWEN LANE

28 AUGUST 2017

Further to the notification issued on 9 August, communication relocation works in the footpath along St Kilda Road between Bowen Crescent and Bowen Lane will now take place from Monday 28 August 2017, for approximately six weeks.

What we are doing

These works will involve installing some new conduits and relocating existing conduits using non-destructive digging to expose a large trench, including safely removing and replacing asbestos conduits. Specialist asbestos removalists have been contracted to remove the non friable asbestos conduits using safe handling and disposal procedures in accordance with industry standards.

What to be aware of

During these works there will be approximately three days when access to the Botanica St Kilda Road driveway will be impacted from 9am - 3pm. Residents will be provided with 48 hours advance notification ahead of these works.

Temporary fencing will be erected around our worksite. Five one hour and three 15 minute car parking spaces will be occupied for the duration of these works to provide a dedicated pedestrian path into your building.

When

- Works will be undertaken during normal construction hours
- 7am - 6pm, Monday to Friday
- 7am - 1pm, Saturdays

In addition to these works, Telstra's contractor will continue to access the Bowen Crescent manhole adjacent to the Botanica until the end of September at intermittent periods during the day and night. Works at this location will include cable hauling, copper jointing and optic fibre splicing and require generator powered lighting and the presence of construction vehicles hauling cables
