

## DOMAIN PRECINCT

### UPCOMING TRANSPORT CHANGES JANUARY - APRIL 2018

Works in preparation for major construction of the Metro Tunnel and new Anzac Station are underway in the Domain precinct. These works will lead to St Kilda Road being reduced to one lane in each direction for an extended period between Dorcas Street and Toorak Road West, meaning there will be significant changes to pedestrian, cyclist, public transport and vehicle movements in the area for several years.

#### Changes to the way you move around the Domain Precinct

This brochure provides an overview of the transport changes, and a snapshot of the construction activities required to establish our St Kilda Road work site and to divert trams and other traffic around the Anzac Station construction site. St Kilda Road will be reduced to one lane in each direction for up to four years while the station is built.

#### Construction activity

Works to be carried out during this time include the removal of existing medians and kerbs, road service works to allow for relocated tram tracks, installation of new poles for relocated overhead tram wires and tree pruning and removal. All construction works are subject to the relevant planning approvals.

#### Cycle lanes

St Kilda Road is one of Melbourne's busiest cycling routes. During the works a dedicated on-road bike lane will be maintained on St Kilda Road in each direction. Some changes may be required during off peak periods and will be clearly signed.

#### Creating a safe worksite and keeping you moving

These changes have been designed to safely move people around the precinct while construction takes place.

#### Tram changes

From mid-January to mid-February 2018, a new tram stop will be constructed on Park Street, South Melbourne. From 2-6 February, buses will replace Route 58 trams, and Park Street will be closed to traffic between St Kilda Road and Kings Way. Further detail is available from the Metro Tunnel website.

In the April 2018 school holidays, major works will be carried out on St Kilda Road to realign tram tracks and divert them around the work site. In preparation, the Bowen Crescent tram stop and the pedestrian crossing will be out of service from mid-January 2018. Further detail on the April tram works and the impact to services will be available closer to the start of construction.

#### Know your travel choices

During periods of increased disruption consider your travel choices. For more information to help with your journey visit [metrotunnel.vic.gov.au/construction/your-journey](http://metrotunnel.vic.gov.au/construction/your-journey).

The following changes will be progressively delivered from mid-January to April 2018 in the lead up to the major tram works, subject to planning approvals.

- 1

**St Kilda Road**
  - Reduced to one lane in each direction between Dorcas Street and Toorak Road West
- 2

**Pedestrian crossing closures**
  - St Kilda Road pedestrian crossing closed at Domain Road. Crossing via Park Street
  - Western pedestrian access to Domain Tram Interchange via crossing at Park Street
  - Bowen Lane tram stop pedestrian access closed.
- 3

**Tram Stop**
  - Bowen Lane tram stop closed from mid-January
- 4

**Bowen Crescent**
  - Left-in/left-out access off St Kilda Road service lane
- 5

**Bowen Lane**
  - Left-in/left-out access off St Kilda Road service lane
- 6

**Albert Road**
  - No exit to St Kilda Road, exit via Kings Way
  - Left access from St Kilda Road only via Albert Road South
- 7

**Park Street**
  - Full closure to traffic and trams between St Kilda Road and Kings Way from 2-7 February for Yarra Trams tram stop works
  - Buses replacing trams during full closure
  - Traffic management in place at other times between mid-January and mid-February.
- 8

**Domain Interchange**
  - Domain Interchange will remain open until the major tram works in April 2018
- 9

**Kings Way**
  - Night works on Kings Way city bound north of Albert Road from mid-late January to improve traffic flow while St Kilda Road is reduced to one lane in each direction
- 10

**St Kilda Rd near Government House Drive**
  - The southbound St Kilda Rd lane configuration adjacent to Government House Drive will be modified to encourage motorists into the service lane, in preparation for future construction stages.

Indicative only

## Parking during construction

St Kilda Rd kerb side public parking will be removed adjacent to the major work areas and where required to facilitate single lane operations. Parking in Albert Road will be affected during construction, however the project will aim to retain as many parking spaces as possible. During the works Metro Tunnel construction workers will not be permitted to use public parking spaces and compliance monitoring will be in place.

## Works notifications

As part of our commitment to keeping the community informed, you will be notified of upcoming construction works in your area, including specific timeframes and expected local impacts. These construction updates will be distributed in hardcopy and electronically, closer to the start of construction. You can register to receive electronic notifications about works in your area via the Metro Tunnel website.
